BRPO_CO failed in PO_POCHNG - unique constraint error in PS_PO_CHNG_HDR

Problem
identified that this step failed due to the following:
insert statement into PS_PO_CHNG_HDR WHERE PO_ID = '706669' AND CHNG_ORD_SEQ = 0
I first took all the rows for that PO_ID and saved them as insert statements
I deleted the 9 rows causing the problem using the following statement
Delete FROM PS_PO_CHNG_HDR WHERE PO_ID = '706669' AND CHNG_ORD_SEQ = 0
I then restarted the step
the run ran to completion
