Accessibility Block and Toolbar

LATTE allows for accessibility modifications within a course. Every student can add the accessibility block and toolbar to their own Dashboard, but each instructor must enable the block on their course page to allow students to access it.

Add the Accessibility Block

You can add a block by:

1. Visit LATTE and select the course
2. Turn editing on
3. Scroll to the bottom of the blocks on the left-hand column
4. Find the "Add a block" tool
5. Select "Accessibility"

Use the Accessibility Block

The block edits the course page by:

1. Increases/decreasing text size
2. Changes the LATTE page contrast
3. Launches the ATbar

Use the Accessibility Toolbar

Launch the Accessibility Toolbar by clicking the button on the Accessibility block.

You can check the "always" box to keep the toolbar every time you view the LATTE course page.
LATTE

- Increases/decreasing text size
- Change font and spacing
- Spell checker
- Dictionary
- Text to Speech
- Change page style, colors, and contrast

- Add a color overlay

If you need assistance or training to use the Accessibility Block or Toolbar, contact latte@brandeis.edu.
