Visualization Jobs

To get a visualization session on HPCC, follow these steps:

1. Log in to hpcc with "-X" flag: i.e. ssh -X your_user_name@hpcc.brandeis.edu
2. salloc -N 1 -n 1 -A guest -p guest-compute -J vis
3. ssh -Y $SLURM_NODELIST
4. Do your visualizations - Use "&" at the end of the execution command so that your terminal will remain active. For instance, if you are running matlab use: matlab &
5. exit
6. scancel -n vis
