Parallels is virtualization software that allows a user to run the Microsoft Windows operating system on their Mac.

Current Version: 13

**Type of License**
Parallels is not covered under any campus license, but instead must be individually purchased.
Expiration Date: N/A

**System Requirements**
Operating System: macOS Yosemite (10.10) or later
Memory: 8GB
Hard Disk Space: 1GB plus 30-50GB for guest OS

**Install the Software**
Faculty, staff, and students may purchase the installer at the LTS online software store.

**Get Support**
For installation help, contact the Help Desk.
For support after installation, visit the Parallels support page.

**Special Notes**
You will need a minimum of 50GB additional disk space for the latest version of Windows 10, plus additional space for any programs you install within Windows.

MacBook Air laptops are not recommended, as they often contain insufficient hardware for software like Parallels & VMWare.
